

EKO

The purpose of *Fueko* and other *Eko* verses is to 'turn around (eko) any merits accrued from chanting or any other ritual practices, and ths pass on or return any merit accrued to all sentient beings. Accordingly, it is always the last chant performed in a Buddha Service.

English Translation

I vow that the merit-virtue of this truth
Be shared equally with all beings.
May we together awake the Bodhi Mind,
And be born in the realm of Serenity and Joy.
